

Lamium confertum

FAMILY

Lamiaceae

AUTHORITY

Lamium confertum Fr.

FLORA CATEGORY

Vascular – Exotic

STRUCTURAL CLASS

Herbs - Dicotyledons other than Composites

CONSERVATION STATUS

Not applicable

SIMILAR TAXA

L. Confertum is closely related to L. purpureum var. hybridum (Villars) but this has floral leaves (bracts) all petiolate and with longer, narrower and sharper lobes. The general aspect is also much like L. amplexicaule and it has often been confused here and overseas with this species. However L. amplexicaule has all its floral leaves sessile and amplexicaul and the calyx 5-7 mm long. (Webb et al. 1995)

FLOWER COLOURS

Red/Pink, Violet/Purple

YEAR NATURALISED

1964

ORIGIN

N. Europe, Portugal.

Reason For Introduction

Ornamental
