

Paracromastigum drucei

COMMON NAME

Liverwort

SYNONYMS

Pseudocephalozia drucei R.M.Schust.

FAMILY

Lepidoziaceae

AUTHORITY

Paracromastigum drucei (R.M.Schust.) R.M.Schust.

FLORA CATEGORY

Non-vascular – Native

STRUCTURAL CLASS

Liverworts

NVS CODE

PARDRU

CURRENT CONSERVATION STATUS

2009 | Range Restricted

ETYMOLOGY

drucei: Named after Anthony (Tony) Peter Druce, one of New Zealand's most respected field botanist (1920-1999).

NEW ZEALAND BOTANICAL HISTORY

For a brief biography for this plant is named, see this article in [Te Ara - The Encyclopedia of New Zealand](#). Hundreds of Tony's famed plant lists can be found [here](#) and back-issues of regional Botanical Society Journals which he contributed can be accessed [here](#).
