

**SOME INDIGENOUS VASCULAR PLANTS OF TRUE LEFT HEAD OF HAWKINS
GULLY STREAM, MAKARA, CENTRED ON NZMS 260 R27 MAP WELLINGTON, G.R.
553971; LIST COMPILED BY J. C.HORNE AND B.J.MITCALFE ON 8/6/93.**

MONOCOT TREES

Cordyline australis

DICOT TREES AND SHRUBS

Brachyglottis repanda

Carmichaelia australis

Cassinia leptophylla

Coprosma propinqua var. *latiuscula*

Coprosma rhamnoides

Corynocarpus laevigatus

Hebe sp. (*Veronica arborea*)

Hebe stricta var. *macroura*

Leptospermum scoparium

Macropiper excelsum

Melicytus ramiflorus

Olearia paniculata

Olearia solandri

Pennantia corymbosa

DICOT LIANES

Clematis sp.

Metrosideros diffusa

Muehlenbeckia australis

Muehlenbeckia complexa

Passiflora tetrandra

FERNS

Adiantum cunninghamii

Asplenium flabellifolium

Asplenium flaccidum

Asplenium oblongifolium

Blechnum chambersii

Blechnum fluviatile

Blechnum minus

Blechnum sp. ("common lowland")

Cyathea dealbata

Cyathea medullaris

Lastreopsis glabella

Paesia scaberula

Pellaea rotundifolia

Phymatosorus pustulatus

Pneumatosorus pennigera

Polystichum richardii
Pteridium esculentum
Pteris tremula

GRASSES

Cortaderia fulvida
Poa anceps

SEDGES

Carex flagellifera
Carex geminata
Carex secta
Cyperus ustulatus
Isolepis prolifer

RUSHES

Juncus sarophorus
Juncus (aggregatus ?)

MONOCOT HERBS (other than orchids, grasses, sedges or rushes)

Astelia solandri
Gahnia (xanthocarpa ?)
Phormium cookianum
Phormium tenax

COMPOSITE HERBS

(? Pseudo) gnaphalium "inland"
Senecio rufiglandulosus

DICOT HERBS

Acaena anserinifolia
Crassula (sieberiana ?)
Dichondra repens
Einardia triandra
Epilobium sp.
Galium (propinquum ?)
Hydrocotyle moschata
Lobelia anceps
Parietaria debilis
Urtica incisa
Wahlenbergia sp.
